Hi Sarah,

Thank you for your help today. Here is the email that Chris Ruhl of EPA received from (b) (6) regarding her property near the old Ohio Oil Company near Bristow, Oklahoma. EPA did an investigation of Ohio in late 1998 and determined that the site did not qualify for remedial action under Superfund. I have attached the record of our decision. I will be following up with Ms. (b) (6) to let her know that EPA has no plans to perform remedial activities at the former Ohio Oil Company site, and to let her know that someone from OERB will be contacting her. I will include your agency on that correspondence. Once again thank you for your assistance in this matter.

(b) (6) -

Thanks for sending me your photos. I believe that EPA is in discussions with the Oklahoma Department of Environmental Quality (ODEQ) about the former Wilcox Refinery site. I don't have any information but Brenda Cook is our lead for these discussions and I have cc her on this message. She can be reached at (214) 665-7436.
